CAREER OBJECTIVE

Enthusiastic Web Developer with proficiency in HTML, CSS, JavaScript, React JS, and Flask, seeking an entry-level Web Developer position to utilize full-stack development skills in building scalable, responsive, and user-centric web applications.

EDUCATION

MCA | 2025-2027

Arcot Sri Mahalakshmi Women's Institute of Management and Computer Applications

BCA | 2022-2025 CGPA : 84%

Arcot Sri Mahalakshmi Women's College of education

INTERNSHIP

Python Intern

Pemchip Infotech | May 2026 – June 2026

- Preprocessed structured CSV datasets using transformation layers, Label Encoding, and Standard Scaler for feature engineering.
- Implemented and compared SVM and Random Forest classifiers for predictive modeling using Python and Google Colab.
- Exported and saved the trained model as a model file for future deployment and reuse.

Technology : Pandas, Scikit-learn, Support Vector Machine (SVM), Regression.

SKILLS

Programming Language: Python, JavaScript, React JS and Flask

Web Technologies: HTML/CSS, Bootstrap

CERTIFICATION

- Web Development Fundamentals - IBM
- Fundamentals of Machine Learning and Artificial Intelligence - AWS
- Cloud Computing - NPTEL

PROJECTS

A Verifiable Cloud Data Deduplication Scheme with integrity and deduplication proof

HTML, CSS, JavaScript and JDBC

- Designed a secure cloud deduplication system using convergent encryption to reduce redundant data while preserving data integrity.
- Integrated third-party auditing and cryptographic verification to enhance security and prevent unauthorized data modification.

Resume Checker HTML, CSS, JavaScript, Python, Flask [Link](#)

- Developed a full-stack ATS-style resume checker to compare resumes with job descriptions and calculate a match score.
- Extracted keywords and highlighted missing skills to provide actionable resume improvement suggestions.

Mealify- Meal Planner and Recipe finder React JS, JavaScript, TheMealDB API [Link](#)

- Built a responsive React app to fetch and display meals, recipes, and ingredients using TheMealDB REST API.
- Implemented a meal planner, favorites system, and JavaScript chatbot for personalized meal suggestions.
